

Stylist Article – December 2020 – Seeking Manicurists for Occupational Analysis Workshop

The Board of Barbering and Cosmetology (Board) is currently in the process of conducting an Occupational Analysis on the manicuring profession. An occupational analysis defines a profession in terms of the actual tasks that new licensees must be able to perform safely and competently at the time of licensure. To develop a licensing examination that is fair, job-related, and legally defensible, it must be based upon what licensees do on the job.

The Board is seeking manicurists located throughout California who will assist with this project as expert consultants. Participants must meet the following criteria:

- Have a current/active manicurist license
- Currently provide manicuring services on clients in a Board-licensed establishment
- Have not received a violation from the Board within the last five (5) years.

The virtual/online workshop will take place February 23, 24, 2021. Participants will be expected to participate all day.

If you meet all criteria above and are interested in applying for this opportunity, please email Allison.Lee@dca.ca.gov (subject line: Manicurist OA) with the following information:

- Your name
- Your phone number
- Your license number
- The license number of the establishment in which you work

Reminder: you can find your license number at <https://search.dca.ca.gov/>.

Thank you for your assistance with this important project. Your valuable input will assist the future generations of the manicuring industry.
