A "whirlpool footspa" or "spa" is any basin using circulating water. An air-jet basin is any basin using an air jet stream system to move water.

**Steps to follow after each client:**

1. Drain the basin of all water.
2. Scrub the inside walls of the basin and clean all visible debris with a clean brush, liquid soap (labeled as such) and water.
3. Rinse the basin with clean water.
4. Refill the basin with clean water.
5. Add disinfectant. Refer to the manufacturer’s label to determine how much disinfectant to use. Remember that the disinfectant must be an EPA-registered, hospital-quality liquid disinfectant that is labeled as a bactericide, fungicide and virucide.
6. Circulate for at least 10 minutes.
7. Drain and rinse the basin with clean water.
8. Wipe the basin dry with a new, clean paper towel.
9. Record this procedure in the pedicure-cleaning log. The log should indicate the date and time of each cleaning, the initials of the person who completed the procedure, and that the cleaning was done after a client. The log shall be made available to either a client or a board representative upon request.

**Steps to follow at the end of each day:**

1. Remove the screen and any other removable parts.
2. Scrub all visible debris from the screen, the inside walls of the basin, any other removable parts, and the area behind them with a clean brush, liquid soap (labeled as such) and water.
3. Re-insert the clean screen and any other removable parts.
4. Fill the basin with clean warm water and detergent (labeled as such).
5. Circulate for at least 10 minutes.
6. Drain the detergent solution and rinse the basin with clean water.
7. Refill the basin with clean water.
8. Add disinfectant. Refer to the manufacturer’s label to determine how much disinfectant to use. Remember that the disinfectant must be an EPA-registered, hospital-quality liquid disinfectant that is labeled as a bactericide, fungicide and virucide.
9. Circulate for at least 10 minutes.
10. Drain and rinse the basin with clean water.
11. Wipe the basin dry with a new, clean paper towel and allow it to dry completely.
12. Record this procedure in the pedicure-cleaning log. The log should indicate the date and time of the cleaning, the initials of the person who completed the cleaning, and that the cleaning was done at the end of the day. The log shall be made available to either a client or a board representative upon request.
Steps to follow at least once a week:

At least once a week, after performing steps 1-8 required at the end of each day, perform the following:

1. **Turn off** the unit, **but do not drain** the disinfectant solution.
2. **Leave disinfectant solution undisturbed in the basin for at least 6 hours.**
3. **Drain** and rinse the basin with clean water.
4. **Refill** the basin with clean water and flush the system.
5. **Record this procedure in the pedicure-cleaning log.** The log should indicate the date and time of the cleaning, the initials of the person who completed the cleaning, and that the cleaning was done weekly. The log shall be made available to either a client or a board representative upon request.

Revised July 2015 (16 CCR § 980.1)
